FUZZ-IEEE 2012: Paper F-0236 Confirmation

Please print this confirmation page for future reference. You should receive an e-mail confirmation of your submission. **If you do not receive an e-mail notification within 24 hours, please contact James M. Keller <fuzzieee2012@ieee-cis.org>.**

Dear Author(s),

Your paper number F-0236 was resubmitted successfully to FUZZ-IEEE 2012. Please use the paper number in all your correspondence. In case of problems with your PDF file you will be notified and asked to resubmit a corrected file.

Your submission was recorded as follows:

Title: jFuzzyLogic: A Robust and Flexible Fuzzy-Logic Inference System Language Implementation
Author(s): Pablo Cingolani and Jesus Alcala-Fdez
Affiliation(s):

Abstract:

This work introduces jFuzzyLogic, an open source library for fuzzy systems which allow us to design Fuzzy Logic Controllers supporting the standard for Fuzzy Control Programming published by the International Electrotechnical Commission. This library is written in Java and is available as open source from jfuzzylogic.sourceforge.net. The use of jFuzzyLogic is illustrated through the analysis of one case study.

Preferred form of presentation: Oral

Paper Topics:

Z. COIs: conflicts of interest in special sessions S01 to S55
S26. Software for Soft Computing

Student Paper: No
