Zadanie domowe – Laboratoria 8. Git.

Utwórz repozytorium na git.wmi.amu.edu.pl do przechowywania zadań domowych z poprzednich tematów. Następnie dodaj z poziomu konsoli wszystkie zadania wykorzystując co najmniej trzy polecenia git push (na repozytorium zorganizuj poszczególne laboratoria w foldery). Jako rozwiązanie wygeneruj plik pdf zawierający link [https](https://git.wmi.amu.edu.pl) do repozytorium oraz pełną zawartość z konsoli (jako ostatnie polecenie w konsoli wykorzystaj git log).
